

CO₂ Dry Ice Blasting

Capabilities & Benefits:

- A completely self-contained and portable cleaning method.
- Adjustable blasting pressure from 90psi for delicate surfaces, up to 150psi hard surfaces.
- Removes contaminants with no damage to the insulation system of generator and/or electric motor windings.

Capabilities & Benefits (continued):

- Environmentally friendly with no media cleanup due to dry ice disintegration upon impact.
- No baking or dry-out of windings required as a result of the cleaning process.
- Qualified and highly experienced nexGEN Blast Operators on staff, and 24 hour service available.
